

## REMARKS

Reconsideration of this application is respectfully requested as it is believed the amendments made herein place the application in condition for allowance.

The examiner previously acknowledged in the Office Action of May 25, 2005 that the structure of the present invention and the structure of Martinez, Sr. were different.

Applicant's Request for Continued Examination, which accompanies this Amendment, follows a June 7, 2005 telephone interview with Examiner Cherry initiated by applicant's attorney. The interview included a discussion of proposed amendments to claims 15 and 21.

The amendments define side members of the support housing surrounding the pan surface. The side members form a hollow wall of U-shaped cross-section with spaced inside and outside wall portions and a film mounting surface joining the spaced inside and outside wall portions.

In Martinez, Sr. a frame 12 has U-shaped side members with upper and lower or front and rear legs 16 and 18 joined by an outer surface 21. However, the front leg 16 forms the film mounting surface.

The examiner indicated in the interview summary of June 9, 2005 that the proposed amendments would overcome the rejection of record. The proposed amendments discussed during the interview are incorporated in the amendments to claims 15 and 21 submitted herein.

It is submitted that claims 15 and 21 are allowable and allowance thereof is respectfully requested.

It is also submitted that claims 16-20 which directly or indirectly depend on claim 15 are likewise allowable for reasons supporting allowance of claim 15 as well as the distinctions defined therein. The examiner had already indicated that claims 16, 18 and 20 contain allowable subject matter. Allowance of claims 16-20 is thus respectfully requested.

Claims 22-23 which directly or indirectly depend on claim 21 are also submitted as allowable for the reasons supporting allowance of claim 21 as well as the distinctions defined therein. The examiner has already indicated that claim 23 contains allowable subject matter. Allowance of claims 22 and 23 is thus respectfully requested.

In view of the foregoing remarks and amendments, it is submitted this application is in condition for allowance and allowance thereof is respectfully requested.

Dated: June 27, 2005
